**Qualcomm**  
S7 (Gen1) or S5 (Gen3)

Powered by Alango voice, audio,  
assistive hearing DSP technologies

[Introducing the first Qualcomm S7/S5 Bluetooth module on the market](#)

## Streamline Your Product Development with Alango Sound Processing Module (ASPM)

The ASPM offers a pre-integrated, ready-to-use solution running on qualified hardware that accelerates development and simplifies testing. By focusing on core product features, developers can significantly reduce design hours and expedite time to market.

Alango's sound processing technologies for voice, hearing, and audio applications are available on the ASPM. This modular approach ensures optimal performance for various sound-centric uses:

- **Communication:** transmitting and receiving intelligible voice
- **Entertainment:** enhancing the audio experience for movies, music, and gaming
- **Accessibility:** assisting individuals with hearing impairments
- **Control:** improving voice-activated commands and automation
- **Safety:** hearing protection
