

**Alango Company Newsletter**

**October 2023**

## **Audio Enhancement Advancement**

Introducing Alango's Audio Enhancement Package (AEP) - a symphonic set of digital signal processing software technologies designed to transform the playback experience of any audio device, including the following features:

- Enhanced music with tuned stereo for an authentic binaural experience, spectral augmentation to reveal crisp tones, and bold bass.
- Automatic amplification and equalization to adjust audio content according to ambient noise characteristics on the fly.
- Intelligible audio of streamed content of movies/shows to capture all important dialog. Never again will overbearing sound effects and music mask the spoken word.
- And much more!

AEP is an easily integrated, low resource (MIPS, memory) software package for customized audio excellence. Contact Alango to unleash the sound of your next audio design.
